## Notes about our price list and our service:-

This price list represents the range of equipment that we normally carry in stock. Each manufacturer and importer that we deal with has a wide range of machinery that will not all be listed here so if you cannot see a machine to suit you then please contact us and we will do our utmost to help you.

We aim to provide a wide range of equipment offering good value for money at all times and with an emphasis on the better quality end of the market.

All machines that we supply will normally be fully assembled and where appropriate fuelled & oiled ready to use!

Most machines can be delivered free of charge within our local area.

We offer a **Half Price Service** on any new machines sold during the year provided that they are booked in for service during November or December which is our winter servicing period.

We provide a high quality parts and service backup for all machines that we sell.

In the event of a machine failure during the warranty period, we will give absolute priority to the repair, often providing an immediate or same-day service.

All prices quoted are inclusive of VAT at 20%

The specifications in this price list are intended as a means of comparing products within our product range. They are subject to change without notice and although we do our utmost to ensure that they are correct it is advisable to contact us to confirm exact current specifications and prices prior to purchase.

**If you do find the same machinery advertised locally or nationally at a lower price then please contact us as we will always consider matching competitors for local business.**

**Ideally we want to supply machines within our normal local delivery area (max 30 miles)** as we believe that most equipment requires regular maintenance and ready availability of spare parts. There are already too many people selling equipment via the internet, and indeed from larger stores where there is no provision for future servicing or even warranty backup by them. Prices are often attractive but **claims that national service networks are available may be misleading.** Although warranty cover is provided by the manufacturer the actual warranty repair is usually carried out by specialist dealers such as ourselves and our priority is always to look after our own customers as they are where our future lies.

## Robot Mowers

The robotic mowers, once installed, will automatically cut your lawn to a pre-programmed schedule. They generally need to be programmed to cut for a few hours daily and most models are powered by Lithium Ion batteries. The mower senses when the battery power is low and automatically returns to its charging base for a re-charge before setting out again.

As the grass is being cut on such a regular basis, the cuttings are very fine so will quickly decompose and be absorbed back into the lawn as a natural fertiliser. This daily cutting also means that the grass always has a tidy appearance instead of the nicely “Just Cut” look at the weekend and the “I Badly Need Cutting” look a fortnight later.

Installation is fairly straightforward for anyone with reasonable DIY skills but can be performed by an approved technician at prices from £299.00 if required. Historically, most machines would have required a boundary wire to be pegged out or installed by special machine underground. Most manufacturers have now developed autonomous machines guided by satellite technology, that can operate within a border simply mapped out by smartphone and accurate to within approximately 20mm without the need for the boundary wire. This makes for a much simpler installation and allows much more flexibility if changes need to be made at a later date. They also cut systematically in straight lines so operate for significantly less time than the wire guided machines.

### **Stiga Stig A Series – Autonomous robots with wire-free installation**

#### **Stiga Stig A750**

£1699.00

*rrp £1929.00*

The Stig A750 has a maximum cutting area of up to **900 square metres**. 18cm cutting width. Height adjustment from 20mm to 60mm.

#### **Stiga Stig A1500**

£2399.00

*rrp £2769.00*

The Stig A1500 has a maximum guaranteed cutting area of up to **1500 square metres**. 18cm cutting width. Height adjustment from 20mm to 60mm.

Wireless installation via phone app. The active guidance system and organised cutting allow this machine to cut more efficiently than the random patterns of the wired robots.

Initial installation is much simpler than wired machines but the ability to simply change the cutting area to suit different seasons (excluding areas where daffodils are planted for example) or for short periods (garden party or trampoline for example) is a very useful feature.

#### **Stiga Stig A3000**

£3199.00

*rrp £3699.00*

The Stig A3000 is similar to the Stig A1500 in operation but with larger battery capacity and 26cm cutting width it has a maximum guaranteed cutting area of up to **3000 square metres**. Height adjustment from 20mm to 60mm.

Wireless installation via phone app. The active guidance system and organised cutting allow this machine to cut more efficiently than the random patterns of the wired robots.

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

## Robot Mowers – cont

### Autonomous robots with wire-free installation

#### **Stiga Stig A5000**

£3999.00

*rrp £4599.00*

The Stig A 5000 shares the same body as the A3000 but a better battery capacity enables it to cut areas up to **5000 square metres**. Height adjustment from 20mm to 60mm. Wireless installation via phone app. The active guidance system and organised cutting allow this machine to cut more efficiently than the random patterns of the wired robots.

#### **Stiga Stig A7500**

£4599.00

*rrp £5299.00*

The Stig A 7500 is similar to the A5000 but is capable of cutting areas up to 7500 square metres.

#### **Stiga Stig A10000**

£5399.00

*rrp £6199.00*

The Stig A10000 is similar to the A7500 but is capable of cutting areas up to 10000 square metres.

## Autonomous robots with wire-free installation

### Segway i105E

*rrp £749.00*

The Segway i105E is the smallest of their robots that operate entirely via GPS and therefore do not require a boundary wire. This mower is capable of cutting **up to 500 square metres**. Additional 4G module for enhanced connectivity - £99.99

### Segway i108E

*rrp £999.00*

The Segway i108E is similar to the i105E but is capable of cutting **up to 800 square metres**. Additional 4G module for enhanced connectivity - £99.99

### Segway H500E C/W Visionfence

*rrp £899.00*

The Segway H500E is the smallest of their robots that operate entirely via GPS and therefore do not require a boundary wire. This mower is capable of cutting **up to 500 square metres**. No 4G connectivity. Motorised height of cut adjustment for remote adjustment and different zone heights.

### Segway H800E C/W Visionfence

*rrp £1249.00*

The Segway H800E is the similar to the H500E but is capable of cutting a larger area. This mower is capable of cutting **up to 800 square metres**. 4G connectivity. Motorised height of cut adjustment for remote adjustment and different zone heights.

### Segway H1500E C/W Visionfence

*rrp £1399.00*

The Segway H1500E is a larger robot with greater battery capacity that is capable of cutting **up to 1500 square metres**. 4G connectivity. Motorised height of cut adjustment for remote adjustment and different zone heights.

### Segway X315E

*rrp £1999.00*

The Segway X315E is the smallest of the new Segway X-Series robots that is capable of cutting **up to 1500 square metres**. Multiple cameras provide better all-round vision and object recognition. Further improved navigation and integrated information screen.

## Autonomous robots with wire-free installation

### MAMMOTION YUKA 2WD RANGE

#### Yuka Mini 600

*rrp £549.00*

The Yuka Mini 600 is the smallest of their robots that operate entirely via GPS and therefore do not require a boundary wire. AI cameras enable avoidance of obstacles and allow cutting of shaded areas where the satellite signal may be weak. This mower is capable of cutting **up to 600 square metres**.

#### Yuka Mini 800

*rrp £649.00*

The Yuka Mini 800 is based on the Yuka Mini 600 but with increased battery capacity is capable of cutting **up to 800 square metres**.

### MAMMOTION LUBA 4WD RANGE

#### Luba 2 Mini AWD 800

*rrp £999.00*

The Luba 2 Mini 800 is the smallest of their 4 Wheel Drive robots that operate entirely via GPS and therefore do not require a boundary wire. This mower is capable of cutting **up to 800 square metres**. AI cameras enable avoidance of obstacles and allow cutting of shaded areas where the satellite signal may be weak.

4 Wheel Drive allows cutting of steeper slopes and also benefits when travelling over more uneven ground.

#### Luba 2 Mini AWD 1500

*rrp £1399.00*

The Luba 2 Mini 1500 is based on the AWD 800 but capable of cutting **up to 1500 square metres**.

4 Wheel Drive allows cutting of steeper slopes and also benefits when travelling over more uneven ground.

#### Luba 2 AWD 3000 X

*rrp £1899.00*

The Luba 2 AWD is the heaviest robot in their range with dual cutting discs and 60cm cutting width, capable of cutting **up to 3000 square metres**. AI cameras enable avoidance of obstacles and allow cutting of shaded areas where the satellite signal may be weak.

The 4 Wheel Drive system can cope with slopes up to 80% (38.6 degrees)

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

## Robot Mowers – cont

### Autonomous robots with wire-free installation

**Alko Robolinho 500 Vision**

**£499.00**

*rrp £599.00*

The Robolinho 500 Vision is the smallest of their robots that operate via GPS and RTK and therefore do not require a boundary wire. Additional camera to aid navigation. This mower is capable of cutting **up to 500 square metres**.

### Ego Aura Range

**Ego RMR1500E**

**£2084.00**

*rrp £2199.00*

The Ego Aura-R2 1500 is the smallest of the new Ego Robot Mower range. The Aura R-2 machines are satellite guided and this machine is capable of cutting areas up to 1500 square metres. Supplied with 5Ah battery and 75w charging station.

**RTK antenna with wall bracket costs £185.00 if required.**

**Ego RMR3000E**

**£2484.00**

*rrp £2599.00*

The Ego Aura-R2 3000 is similar specification to the Aura-R2 1500 but is capable of cutting areas up to 3000 square metres.

**RTK antenna with wall bracket costs £185.00 if required.**

**Ego RMR6000E**

**£3234.00**

*rrp £3399.00*

The Ego Aura-R2 6000 is currently the largest of the new Ego Robot Mower range. The Aura R-2 machines are satellite guided and this machine is capable of cutting areas up to 6000 square metres. Supplied with 10Ah battery and 150w charging station.

**RTK antenna with wall bracket costs £185.00 if required.**

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

# **BATTERY POWERED RIDE-ON MOWERS**

These are new machines to the market in the UK and offer performance equivalent to their petrol powered equivalents. They are more costly than their petrol neighbours but are much simpler in design with no drive belts or idler pulleys so will be simpler to maintain. The cost of running is also significantly cheaper than petrol.

One major advantage over the petrol machines is their dramatically reduced noise output, making them ideal for use near schools, offices, hospitals etc, as well as having less impact on neighbours.

## **Collecting.**

1. **Stiga Swift 372e** £2999.00 *rrp £3249.00*

Ride-On mower with 72cm / 28" cutting width and supplied with a 150 litre grass collector. . This machine is **supplied with 4 X 5.0ah 48V Lithium Ion batteries** giving a **battery capacity of 960Wh**. Working area **up to 1600 square metres**. The batteries supplied can be removed individually and used to power a variety of garden tools. Height adjustable from 30mm to 80mm. 5 year conditional warranty.

2. **Stiga Estate 384e (Bare)** £2499.00 *rrp £2699.00*  
**ePower Pro 40Ah Battery (Required)** £799.00 *rrp £899.00*

Tractor mower with 84cm / 33" cutting width and supplied with a 240 litre grass collector. This machine is powered by the **New ePower Pro, removeable 56V 40Ah Lithium Ion battery (2240Wh)** and is capable of cutting up to 4500 square metres on one battery/charge. Two batteries can be fitted if required. Height adjustable from 25mm to 80mm. Charging time is approx. 6 hours. Conditional 5 year extended warranty available.

3. **Stiga Estate 598e (Bare)** £2799.00 *rrp £2999.00*  
**ePower Pro 40Ah Battery (Required)** £799.00 *rrp £899.00*

Tractor mower with 98cm / 38" cutting width and supplied with a 240 litre grass collector. This machine is powered by the **New ePower Pro, removeable 56V 40Ah Lithium Ion battery (2240Wh)** and is capable of cutting up to 4500 square metres on one battery/charge. Two batteries can be fitted if required. Height adjustable from 25mm to 80mm. Charging time is approx. 2 hours 45 minutes. Conditional 5 year extended warranty available.

4. **Ego TR3801E-B** £4499.00 *rrp £4499.00*

**Special starter pack of 4 x 10ah batteries (worth £1716) included at the retail price.**

Tractor mower with 98cm / 38" cutting width. Capable of accepting up to 6 Ego 56v ARC lithium batteries of up to 12ah each. These Ego batteries are removeable and are compatible with a wide range of Ego garden power tools. **The battery pack supplied has a capacity of 2240Wh.**
