## Notes about our price list and our service:-

This price list represents the range of equipment that we normally carry in stock. Each manufacturer and importer that we deal with has a wide range of machinery that will not all be listed here so if you cannot see a machine to suit you then please contact us and we will do our utmost to help you.

We aim to provide a wide range of equipment offering good value for money at all times and with an emphasis on the better quality end of the market.

All machines that we supply will normally be fully assembled and where appropriate fuelled & oiled ready to use!

Most machines can be delivered free of charge within our local area.

We offer a **Half Price Service** on any new machines sold during the year provided that they are booked in for service during November or December which is our winter servicing period.

We provide a high quality parts and service backup for all machines that we sell.

In the event of a machine failure during the warranty period, we will give absolute priority to the repair, often providing an immediate or same-day service.

All prices quoted are inclusive of VAT at 20%

The specifications in this price list are intended as a means of comparing products within our product range. They are subject to change without notice and although we do our utmost to ensure that they are correct it is advisable to contact us to confirm exact current specifications and prices prior to purchase.

**If you do find the same machinery advertised locally or nationally at a lower price then please contact us as we will always consider matching competitors for local business.**

**Ideally we want to supply machines within our normal local delivery area (max 30 miles)** as we believe that most equipment requires regular maintenance and ready availability of spare parts. There are already too many people selling equipment via the internet, and indeed from larger stores where there is no provision for future servicing or even warranty backup by them. Prices are often attractive but **claims that national service networks are available may be misleading**. Although warranty cover is provided by the manufacturer the actual warranty repair is usually carried out by specialist dealers such as ourselves and our priority is always to look after our own customers as they are where our future lies.

# RIDE-ON & TRACTOR MOWERS

## Long Grass and Brush Cutting

1. **Efco/Oleo-Mac 110/24KH** £4999.00 *rrp £5518.00*

Tractor mower with 708cc K2400 AVD V-Twin engine, 110cm, 43" high grass mulching cutting deck. Hydrostatic drive. Height of cut 40-100mm. Chevron tread rear tyres. 324kg.
2. **Alko T22-110 HDH-A V2** £4999.00 *rrp £5299.00*

Tractor mower with Alko Pro 700 708cc 13kw V-Twin engine, 110cm, 43" high grass mulching cutting deck. Hydrostatic drive. Height of cut 30-90mm. Chevron tread rear tyres.
3. **Bertolini Mulcher 92 Pro 2WD (Emak)** £6530.00 *rrp £7098.00*

Ride-On mower with Emak K2400 AVD 700cc V-Twin engine. 92cm 36" cutting deck. These mowers are designed for cutting long grass and brush but have a low centre of gravity, chevron grip tyres and differential lock. 317kg. **Previously Efco Tuareg.**
4. **Bertolini Mulcher 92 Pro 2WD (B&S)** £7379.00 *rrp £8021.00*

Ride-On mower with 20hp Briggs & Stratton V-Twin engine. 92cm 36" cutting deck. These mowers are designed for cutting long grass and brush but have a low centre of gravity, chevron grip tyres and differential lock. 317kg.
5. **Bertolini Mulcher 92 Pro 4WD (Emak)** £10099.00 *rrp £10966.80*

As Mulcher 92 Pro 2WD Emak but with 4 Wheel-Drive. 350kg.
6. **Bertolini Mulcher 92 Pro 4WD (Kaw)** £10569.00 *rrp £11482.80*

As Mulcher 92 Pro models above but with 4 Wheel-Drive and fitted with Kawasaki FS651 V-Twin engine. 350kg.

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

# Zero-Turn machines

## Steering Wheel Design

1. **Cub Cadet – Z1 107S** £5699.00 *rrp £5899.00*

Zero-Turn tractor mower with new 679cc **Cub EFI (fuel injected) engine giving up to 25% fuel economy**. 117cm 46" cut with Zero-Turn capability. Twin hydrostatic transmission and special steering linkage allows this machine to spin round on its rear axle. Other Zero-Turn machines achieve this by using two steering levers, requiring a lot of operator skill but **this machine uses a standard steering wheel** making it as easy to use as a standard tractor. Other benefits of the system are improved traction and control on slopes and the rear wheels are wider spaced than standard tractors making it more stable. The cuttings can be side discharged or mulched. 234kg.

2. **Cub Cadet – Z2 117S** £6199.00 *rrp £6499.00*

As XZ6 S107 but with 117cm, 46" fabricated deck and powered by **726cc Kawasaki engine**.

3. **Cub Cadet – Z3 127S** £6799.00 *rrp £7199.00*

As XZ6 S107 but fitted with 127cm, 50" reinforced fabricated deck and sturdier transmission.

4. **Cub Cadet – XZ8S 122** £9879.00 *rrp £10399.00*

Same design concept as Z machines but heavier build again for professional work. Kawasaki V-Twin engine and 122cm 48" cutting width.

5. **Cub Cadet – XZ8S 137I** £10999.00 *rrp £11699.00*

Same design concept as Z machines but heavier build again for professional work. Kawasaki V-Twin, fuel injected engine and 137cm 54" cutting width.

6. **Cub Cadet – Z5 152** £17669.00 *rrp £18599.00*

Heaviest built of the Cub Cadet Zero-Turn machines built for professional work. Power Steering. 852cc Kawasaki V-Twin engine and 152cm 60" cutting width. Height adjustment 26-127mm. 680kg.

7. **Cub Cadet – Z9 183ID** £24800.00 *rrp £26099.00*

As Z5 152 but fitted with 999cc Kawasaki engine and 183cm 72" cutter deck. 732kg.

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

# Zero-Turn machines

## Lap Bar / Stick Steer Steering

1. **Alko ZT18-107A V2**      **NEW**      £3999.00      *rrp £4499.00*

Zero turn mower with Lap-Bar steering system. Castor front wheels and separately driven rear wheels make these machines the most manoeuvrable and productive available. This mower is fitted with a Alko Pro600 V-Twin engine and has a 107cm 42" side-discharge cutting deck with mulch plug. Cutting height adjustable from 25mm to 102mm.

2. **Cub Cadet – Z1 107**      £5599.00      *rrp £5899.00*

Zero turn mower with Lap-Bar steering system. Castor front wheels and separately driven rear wheels make these machines the most manoeuvrable and productive available. This mower is fitted with a Cub Cadet 679cc V-Twin engine and has a 107cm 42" side-discharge cutting deck with mulch plug. 267kg.

3. **Cub Cadet – Z2 127**      £6175.00      *rrp £6499.00*

As XZ5L107 but powered by Kawasaki 726cc OHV V-Twin engine and with heavier duty fabricated 127cm 50" cutting deck. 285kg.

4. **Cub Cadet – Z3 137**      £6899.00      *rrp £7299.00*

As XZ5L127 but fitted with 137cm 54" cutting deck. 312kg.

5. **Simplicity SZT275**      £6299.00      *rrp £6999.00*

Zero-turm mower with Lap-Bar steering system. Powered by 724cc **Briggs & Stratton 8270 V-Twin engine** and fitted with **122cm / 48" 12 guage, fabricated, rear discharge cutter** deck with half-mulch baffle. This mower has both front and rear suspension for comfort and a rear cargo bed.

6. **Simplicity SZT350**      £7149.00      *rrp £7899.00*

Zero-turm mower with Lap-Bar steering system. Powered by **Briggs & Stratton 8270 V-Twin engine** and fitted with **132cm / 54", fabricated, side discharge cutter** deck. This mower has both front and rear suspension for comfort and a rear cargo bed.

\*\*\*\*\* See details of our price promise on page 2 \*\*\*\*\*

# FRONT CUT RIDE-ON MOWERS

The front mounted cutter decks allow cutting into corners and under obstacles where mid-mounted decks could not reach. Mulching decks are quieter in operation than grass collecting machines and cutting time is greatly reduced as there is no need to stop for trips to the grass tip. Mulching is only suitable where regular cutting is possible however

Many of the current cutter decks can be used in either mulching mode for a fine finish or rear-discharge mode where the grass is too long for mulching. This does require the removal of a baffle from under the deck.

The Stiga machines comprise of rear-wheel steer and articulated steering. With rear-wheel steer machines more care needs to be taken when moving around obstacles as the rear end of the machine will turn towards any obstacle that you want the machine to turn away from. A sharp turn away from a wall might end up with the back of the mower hitting the wall.

With articulated steering the rear wheels always follow the track of the front wheels making it much easier to manoeuvre around obstacles. The steering can feel a bit heavier with this system but many machines now offer power steering, making them extremely easy to control.

Many models also offer 4-wheel drive for improved traction on sharp turns and on slopes.

## Two Wheel Drive

- |    |   |          |                     |
|----|---|----------|---------------------|
| 1. | <b>Stiga Park 300LC (85)</b>  | £2999.00 | <i>rrp £3399.00</i> |

# **BATTERY POWERED RIDE-ON MOWERS**

These are new machines to the market in the UK and offer performance equivalent to their petrol powered equivalents. They are more costly than their petrol neighbours but are much simpler in design with no drive belts or idler pulleys so will be simpler to maintain. The cost of running is also significantly cheaper than petrol.

One major advantage over the petrol machines is their dramatically reduced noise output, making them ideal for use near schools, offices, hospitals etc, as well as having less impact on neighbours.

## **Collecting.**

1. **Stiga Swift 372e** £2999.00 *rrp £3249.00*
